Hi Wanda,

Attached is copy of my presentation.

Here is the factsheet I spoke about. It has a lot of info about shoreline buffers as well as plant selection.

<https://hgic.clemson.edu/factsheet/shorescaping-freshwater-shorelines/>

The nursery I mentioned was: Charleston Aquatic and Environmental <https://charlestonaquatic.com>

Lastly, here is the link for the SC Native Plant Society Grand Strand Chapter Grant. The cycle just closed at the end of September but they usually have 2 cycles per year so the next opportunity would be next spring.
